

## FILE DELIVERY

### PREFERRED FORMAT

-  Format: WAV, AIFF
-  Bit Depth: 24 bit or higher
-  Sample Rate: 44.1khz or higher

### INSTRUCTIONS

-  Remove all FX from your master fader
-  **Instrumental:** Print each individual instrumental track with FX, exactly they appear in the demo. This include all plugins, FX, volume, pan, and mute automation.
-  **Vocals:** Print each individual vocal track without FX. Tuning is ok, but no reverb, delay, compression.
-  Please name each file accurately, and try to keep files in organized folders when possible (eg. drums, bass, instruments, SFX, vocals)
-  Include a wav or mp3 of your most recent demo.

---

When all the files are printed, if you add them back to a brand new session it should sound identical to your most recent demo, minus the vocal FX/reverbs.
